

to find the slope of a line on a coordinate plane

# Find Slope Using a Graph

## Activity 1

### Model: Increasing Slope

Find the slope of each line.

- 1 The rise is \_\_\_\_\_ units.
- 2 The run is \_\_\_\_\_ units.
- 3 The slope is \_\_\_\_\_.
- 4  $\frac{\text{rise}}{\text{run}} = \frac{\boxed{\phantom{000}}}{\boxed{\phantom{000}}}$

# Find Slope Using a Graph

## Activity 1

### Now You Help: Decreasing Slope

Find the slope of each line.

- 1 The rise is \_\_\_\_\_ units.
- 2 The run is \_\_\_\_\_ units.
- 3 The slope is \_\_\_\_\_.
- 4  $\frac{\text{rise}}{\text{run}} = \frac{\boxed{\phantom{000}}}{\boxed{\phantom{000}}}$
